The climatic conditions in 2010 were distinguished by a cool and rainy winter which initially led to a slight lengthening of the flowering stage. The arrival of summer and the warm season in July contributed to a recovery of the ripening phase and, during the harvest there were good temperature variations between day and night with windy days which dried the grapes, maintaining excellent acidity.

The Bolgheri area has a fine tradition of producing rosé wines, a practice which has almost been abandoned over the past twenty years, yet is capable of expressing, as in the case of Cassiopea hints of flowers and small fruits such as blackberry and raspberry. The palate is fresh and litheness with satisfying savouriness and succulence, and long, lingering finish.

Cassiopea rosé is an ideal aperitif wine and also pairs well with various appetizers such as bruschetta, lean cold cuts, mixed fried fish, tempura vegetables and mini pizzas. Also recommended with premium creamy cheeses and Italian robiola cheese, savoury ricotta and mozzarella.
