The 2014 vintage was characterised by a mild winter. Rainfall in January and February allowed for the accumulation of sufficient water reserves which were essential for spring budding. The first months of summer saw average temperatures and sunny days alternating with frequent thunderstorms, thus ensuring a slow and regular development. Significantly, a green harvest made it possible to regulate the vines' load by eliminating the abundant excess bunches. From the end of July, the rains gave way to the highest temperatures in August and September, allowing for the complete and uniform ripening of the grapes, also thanks to careful management of the leaf wall. The wines of this vintage have elegance and finesse which are rare for this area. It is a vintage that might surprise us.

The radiance of the Vermentino varietal reflects intensely in the aromas of Solosole, a white wine that captivates with its intense hints of flowers and unexpected yellow fruit. The palate has a medium body, is succulent and highly enjoyable. The development of the wine in the glass suggests that it has the potential to evolve for a few years.

Solosole is an ideal wine to accompany aperitifs, raw fish and, thanks to its tanginess and fragrance, fried and poached fish. Its crispness also makes it suitable with vegetarian cuisine.
